

BOMAF[®]

Special Valve Solutions

- HP, IP, & LP Turbine Bypass Valves
- Steam Conditioning Valves
- Severe Service Control Valves
- Desuperheaters
- Dump Tubes
- Pressure Reducing Cum Desuperheating Stations
- Safety Valves

Venturi desuperheater

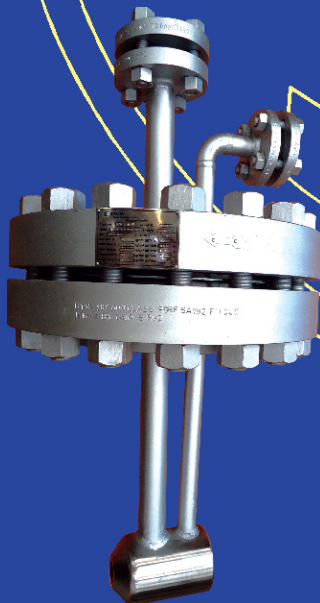

LP Bypass valve
for 660 MW power plant

Minimum flow re-circulation valve

HP Bypass valve

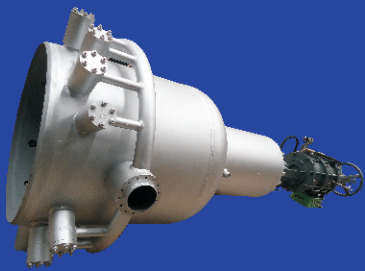

Steam laval jet atomizing
desuperheater

Spring loaded circular
desuperheater

Balanced plug with
special characteristic

LP Bypass valve

Full venturi desuperheater

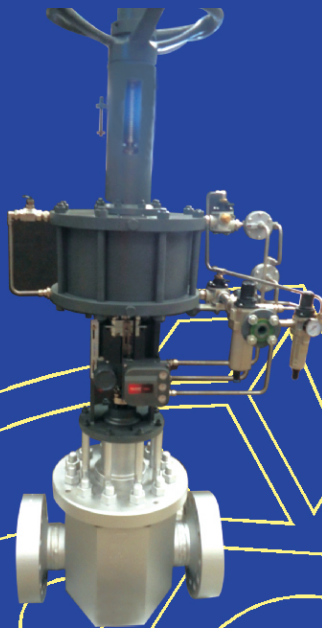

Deesuperheater-In line

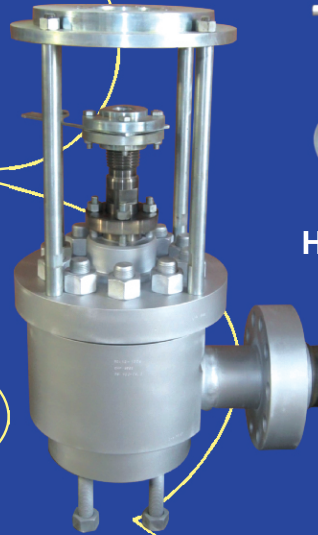

Dump tube

Ring nozzle desuperherter

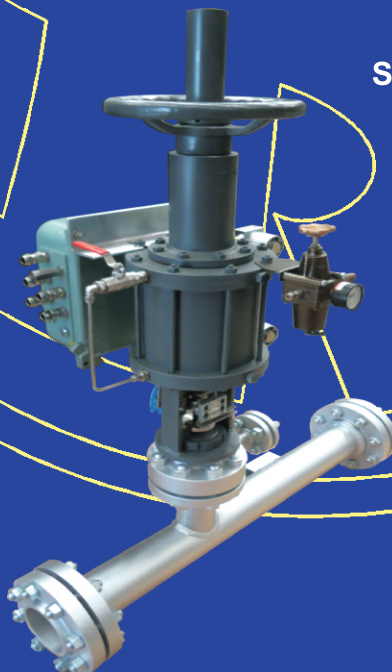

Minimum flow re-circulation valve

Spray water control valve for 660 mw

HP Bypass valve

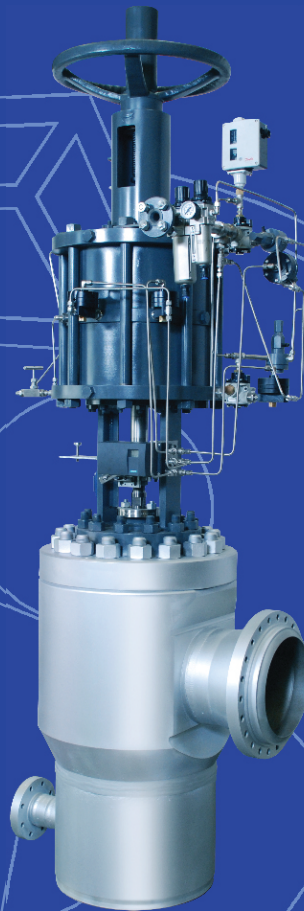

Desuperheater-integral multinozzle type

High pressure control valve

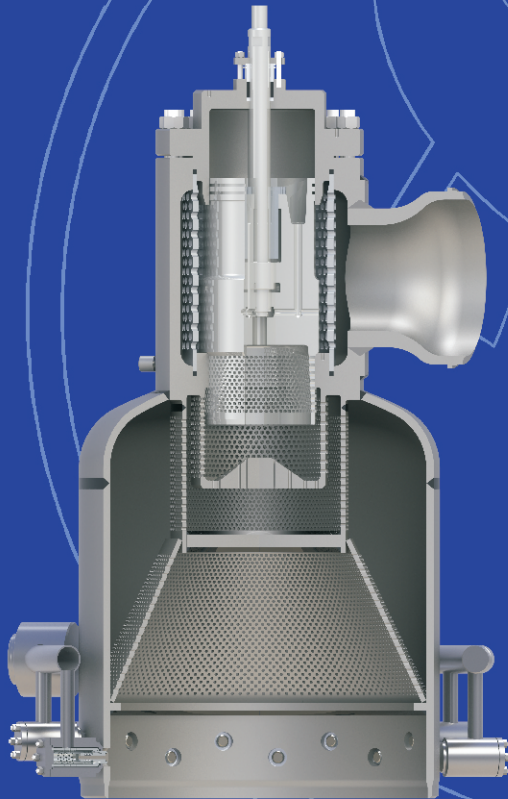

View of nozzles

HP Bypass valve for
combined cycle power plant

Safety Valve

LP Bypass valve for
660 MW power plant

IP Bypass valve for 900 MW
combined cycle power plant
